

The Royal Australian College of General Practitioners (the RACGP) has developed a privacy policy template for general practices to adapt, for compliance with the requirements of the Australian Privacy Principles (APPs). It is important each practice uses this template as a guide and adapts its content to their individual procedures.

This template covers:

- practice procedures
- staff responsibilities
- patient consent
- collection, use and disclosure of information
- access to information.

The template is designed to communicate to patients how a practice manages personal information and to complement other practice policies such as complaint resolution and breach notification procedures. The sections in red text are for you to revise and adapt to the specific procedures of your general practice.

This template was developed with assistance from the Office of the Australian Information Commissioner (OAIC) and was current at time of publication.

For more information on privacy visit [www.oaic.gov.au](http://www.oaic.gov.au), or for privacy policies for GPs, visit [www.oaic.gov.au/privacy/privacy-resources/training-resources/privacy-policies-for-gps](http://www.oaic.gov.au/privacy/privacy-resources/training-resources/privacy-policies-for-gps)

Make your policy freely available for your patients so they know that it exists and they can access it, eg display at your practice reception and on your website if you have one, make reference to it in your registration forms and other forms or notices.

This policy should be reviewed regularly to ensure it remains applicable to current practice procedure and legal requirements.
